

Don't Smoke in the House :30

Announcer Hey parents of children with asthma, here's another hit from the Breathe Easies.

Singing
Don't smoke in the house.
Don't smoke in the house.
Don't smoke around the kids in the house.
Don't smoke in the car.
Don't smoke in the house.
Don't break my heart.
With your sickening smoke
in the kids it can trigger the asthma

Announcer Preventing asthma attacks can be as simple as making the car and the house smoke-free zones. For more Breathe Easie tips to help stop asthma attacks go to noattacks.org
